Corporate Taxpayer's ID (CNPJ/MF) No. 07.859.971/0001-30

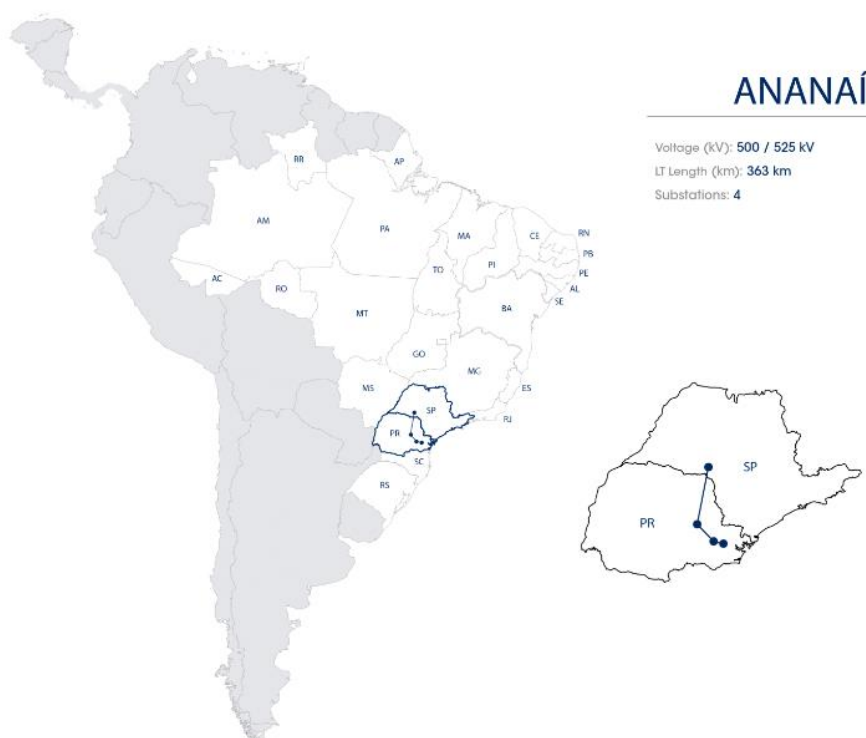

Company Registry (NIRE) No. 33.3.0027843-5

NOTICE TO THE MARKET

Transmissora Aliança de Energia Elétrica S.A. (B3: TAE3, TAE4 and TAE11) ("Taesa" or "Company") informs its shareholders, the market in general and other interested parties that the Brazilian Institute of the Environment and Renewable Natural Resources ("**IBAMA**") has granted the Installation License ("**LI**") for the LT 500 kV Ponta Grossa – Assis (C1/C2), referring to the facilities of the Ananaí Transmissora de Energia Elétrica S.A. ("**Ananaí**") concession.

With this license, all required LIs for the project were obtained. Obtaining the LI is an important milestone for the project, as it authorizes the beginning of construction for that section.

Ananaí is a project currently under construction related to lot 1 of transmission auction nº 02/2021, held in December 2021, 100% controlled by Taesa. Ananaí has an ANEEL Capex of R\$ 1,750 million and will have a total RAP of R\$ 162.5 million (for the 2024-2025 cycle), including PIS/CONFINS, once the project is 100% operational. The project is located in the states of São Paulo and Paraná, with an extension of approximately 363 km of transmission lines. The deadline stipulated by ANEEL for energizing Ananaí is March 2027.

Rio de Janeiro, December 2, 2024.
