

**TRANSMISSORA ALIANÇA DE ENERGIA ELÉTRICA S.A.**

Publicly-Held Company – CVM No. 2025-7

Corporate Taxpayer's ID (CNPJ/MF) No. 07.859.971/0001-30

Company Registry (NIRE) No. 33.3.0027843-5

**NOTICE TO THE MARKET**

**Transmissora Aliança de Energia Elétrica S.A. (B3: TAEE3, TAEE4 and TAEE11)** ("Taesa" or "Company") informs its shareholders, the market in general and other interested parties that the National Electric System Operator ("ONS") issued the Release Term for the capacitor bank at the Colinas substation, within the scope of the reinforcement authorized by REA no. 12.850/2022 ("Reinforcement"), in the Novatrans Transmissora de Energia S.A. ("Novatrans") concession.

With the Reinforcement's entry into commercial operation, Novatrans will receive an additional Annual Permitted Revenue ("RAP") of approximately R\$ 10.8 MM (referring to the 2024-2025 cycle), corresponding to 100% of the total RAP of this Reinforcement, effective, retroactively, as of December 15, 2024. It is important to highlight that this RAP is provisional in nature and will be redefined in the next Periodic Tariff Review ("RTP") for the concession, which will take place in 2029.

The Reinforcement has been delivered approximately 4 months ahead of the deadline required by ANEEL of April 2025. This demonstrates Taesa's execution capacity and commitment to its strategic pillars of sustainable growth, financial discipline, operational efficiency and value generation.

Novatrans began operating in June 2003, and currently integrates the electric power transmission system that interconnects the North and Southeast Regions of Brazil, with 6 substations and approximately 1,278 km of 500 kV transmission lines crossing through the States of Maranhão, Tocantins, Goiás and the Federal District. It is the concession with the greatest extension among TAESA's concessions, having connections with TSN, ATE II, and ATE III, also from Taesa.

## NOVATRANS

Voltage (kV): 500 kV

LT Length (km): 1278 km

Substations:

-Accessed: 6
