

TRANSMISSORA ALIANÇA DE ENERGIA ELÉTRICA S.A.

Publicly-Held Company – CVM No. 2025-7

Corporate Taxpayer's ID (CNPJ/MF) No. 07.859.971/0001-30

Company Registry (NIRE) No. 33.3.0027843-5

Notice to the Market

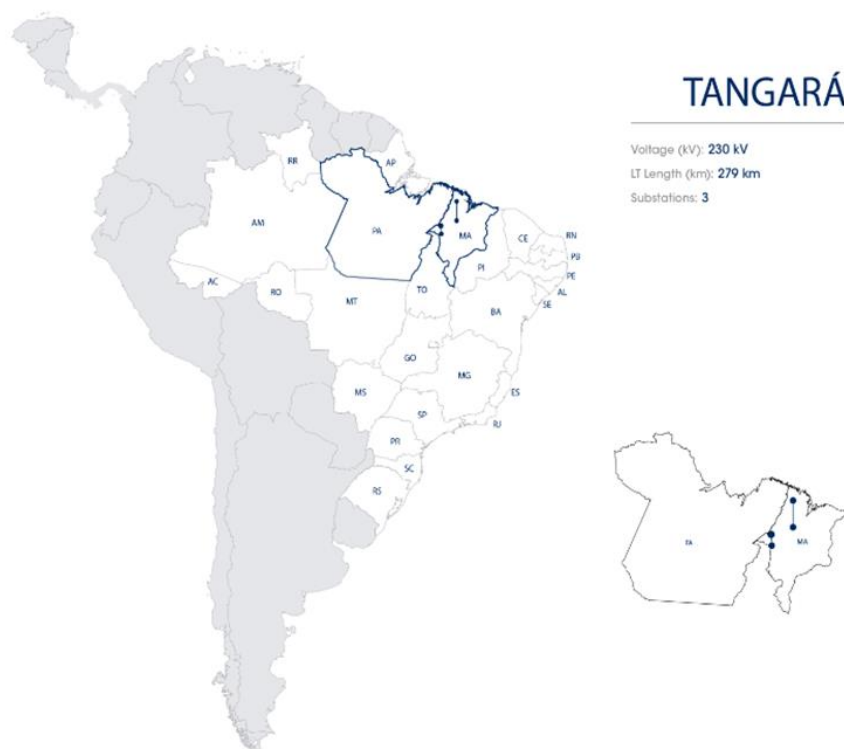

Transmissora Aliança de Energia Elétrica S.A. (B3: TAEE3, TAEE4 and TAEE11) ("**TAESA**" or "**Company**") hereby informs its shareholders, the market in general, and other interested parties that the National System Operator ("**ONS**") has issued the Release Terms related to the energization of the Encruzo Novo Substation and the Encruzo Novo – Santa Luzia III C1 Transmission Line 230 kV, under the Tangará Transmissora de Energia Elétrica S.A. ("**Tangará**") concession.

With this energization, Tangará's Annual Permitted Revenue ("**RAP**") increases by approximately R\$ 18.3 million (for the 2025-2026 cycle), already grossed up by PIS/COFINS, corresponding to 16.2% of the project's total RAP, effective retroactively as of July 27, 2026.

It is worth noting that the Tangará project was already partially operational, with enabled RAP of approximately R\$ 86.2 million, as disclosed on notices published between March, April and May 2026. With this energization, the total enabled RAP amount is now approximately R\$ 104.5 million (for the 2026-2027 cycle), already grossed up PIS/COFINS, corresponding to 92.0% of the project's total RAP.

The project located between the states of Maranhão and Pará, strengthens the transmission network in Brazil's Northern and Northeastern regions. Comprising more than 265 km of transmission lines, including 72 km of double-circuit lines, and the simultaneous implementation of multiple substations at different voltage levels, the project involved significant logistical challenges. The project was partially delivered between 20 and 25 months ahead of the regulatory deadline established by ANEEL for March 2028. This milestone reinforces TAESA's execution capability and its commitment to the strategic pillars of sustainable growth, financial discipline, operational efficiency and value creation.

Tangará is a project corresponding to Lot 3 of Transmission Auction No. 02/2022, held in December 2022, and is 100% controlled by TAESA. Tangará has a total RAP of R\$ 113.4 million for the 2026-2027 cycle, already grossed up PIS/COFINS, and an ANEEL-approved Capex of R\$ 1,117 million.

Rio de Janeiro, August 4, 2026.
